Dallas Jones - Baylor Evnen Law Firm
Navigating the Risks in Return to Work: The Intersection
of Workers' Compensation and Employment Law

Understand what happens when an employee is injured and learn proactive steps you can take to keep the cost of claims down. CEO's, CFO's, HR Managers, Safety Managers, Business and Work Comp Administrators all should attend. Employers are forced to be better prepared and have documentation to back up every decision they make. Learn how to safely navigate a Work Comp claim and about new Work Comp legal cases that are keeping employers up at night.

As part of the ACA, starting October 1, 2013 individuals will have the ability to go online and shop for a variety of different individual health plans to be effective January 1, 2014. Some will potentially be eligible to have all or a portion of their premiums covered by an advance premium tax credit (subsidy). Employees are going to have questions and it's important you understand the rules.

There is no cost to attend this seminar. Continental breakfast will be provided by UNICO and Company Care. Contact Rebekah Lassen with any questions at 402-434-7216 or rlassen@unicogroup.com.
